<b>Description</b>			

#### History

##### #1 - 01/24/2017 10:53 AM - Erwan L.

- Assignee changed from Sandra B. to J rome A.

##### #2 - 03/30/2017 05:00 PM - J rome A.

Cannot reproduce on 0.8 at android project level with

```
/* Translation.java */
@Table
@Entity
public class Translation {

    @Id
    @GeneratedValue(strategy = GeneratedValue.Strategy.MODE_IDENTITY)
    @Column (type = Type.INTEGER, hidden = true)
    private int id;

    @OneToMany(targetEntity = "TranslationItem")
    private ArrayList<TranslationItem> items;

}

/* TranslationItem.java */
@Table
@Entity
public class TranslationItem {

    @Id
    @GeneratedValue(strategy = GeneratedValue.Strategy.MODE_IDENTITY)
    @Column (type = Type.INTEGER, hidden = true)
    private int id;

    @ManyToOne(targetEntity = "Translation", inversedBy = "items")
    private Translation translation;

}
```

Also tested without the "inversedBy" on TranslationItem entity

**#3 - 02/18/2020 04:16 PM - Erwan L.**

- *Target version changed from 0.8.0 to 0.10.0*
